

# HotTooth

Wireless Bluetooth Keyboard

MAN & MACHINE

**T**he HotTooth is a flexible “peanut proof” keyboard engineered for wireless portability. This lightweight keyboard can be rolled up and transported in its own carrying case. It fits easily inside a briefcase or purse. The device is compatible with PCs, Laptops, Tablet PCs, PDAs and Smartphones with Built-in Bluetooth HID profile. The battery driven keyboard can easily be recharged through a PC. Even if you do not have built-in Bluetooth HID profile, as long as you have a USB port available this keyboard can work for you, thanks to the USB Bluetooth bridge we sell separately. The HotTooth is a stylish addition to your mobile workstation that will make typing on your mobile device so much quicker and more comfortable.
