

U Cool

Full Size Washable Keyboard

Need an economical and cleanable keyboard solution? Then the U Cool is the one for you. With the look and feel of a standard keyboard, users won't realize they are typing on something unique until it gets wet. Water, soda, dirt and crumbs don't bother the U Cool because it's designed to protect the sensitive internal electronics. When it's time to clean, no need to unplug the keyboard. Simply lock the keyboard with our unique key lock system and rinse underwater, or wipe down with alcohol or your favorite chemical disinfectant. The U Cool is currently used with confidence by hospitals, schools, libraries, call centers and offices worldwide.

Want additional infection control protection or a one-wipe cleaning solution? Add a Fitted Drape to your U Cool. The 100% silicone drape can be chemically disinfected or sterilized in an autoclave.

The U Cool protects you and your keyboard investment.
